To Dear Tony Chen,

TESTIMONIAL

We would like to express our deepest appreciation to thank OSCA and the awesome team for the amazing work done with our new China Telecom (Asia Pacific) Pte Ltd office interior fit-out works and old office reinstatement works.

Due to our expansion, we migrated from Raffles City Office Tower to One Marina Boulevard, which now has three times bigger area as compared to the old premise. As our project was an extremely demanding and challenging, you had done astonishingly well to enable us to achieve our objectives successfully. From initial design preparation works, the design team has been very professional, which we fully entrusted them to design the interior works. Also, Aaron presenting a hard works and responsible project manager, he give experienced advices and options throughout the renovation process.

Overall, OSCA delivers what she promises and completed the project in time with high-quality results. Thanks to the sound counselling of your design teams and to the patience and capabilities of Aaron, we were able to carry out the full renovation of our unit in accordance with our budget, scope and schedule.

Thank you once again for your relentless effort and commitments towards our project.

Yours Sincerely

Tao Si Yu

Person-in-charge for Office Renovation Project
