Letter Of Commendation / Testimonial.

We have engaged OSCA for interior designing and renovation work in 2022.

We thank the OSCA team for seamlessly handling the entire renovation in our new office. The full spectrum from design, build and completion of the above, commitment, and dedication displayed throughout the various project stages.

We cruised through with their professional guidance during different phases from the material-choosing session, to furniture shopping, and creative space planning.

When there were issues to be rectified, they responded quickly, paid attention to our feedback and gave us absolute support to ensure they were resolved.

They were very detailed oriented, accommodating and give good advice during the renovating process, did what was needed and made it a pleasant experience to be working with them.

We would like to thank Tiffany & Marina for their excellence in managing the project and their team for a job well done.

Given their professionalism, knowledge and expertise, we would strongly recommend OSCA. We also look forward to another opportunity to work with OSCA again in the near future.

Yours sincerely,
