Dear Lionel,

We would like to take this opportunity to provide feed-back to you and your team with regard to our office set-up in Singapore.

We've particularly loved the multi-disciplinary solution offered by OSCA. They combined an elegant and rational approach to design of office spaces with a neat and reliable execution of on-site works. As in any kinds of business, the key for outstanding execution lies in setting-up and coordinating the right team.

Thanks to the sound counselling of your design teams and to the patience and capabilities of your Project manager, we were able to carry out the full renovation of our unit in accordance with our budget, scope and schedule. The feedback we've received from our management, partners and clients is great.

We are more than satisfied with the overall work provided by OSCA, and would be happy to recommend their services to any potential client.

Kind regards,

David Thornes, Director
