Letter of recommendation

We at MONJASA wish to thank OSCA for assisting in the design and renovation work done at our new office premises at One Raffles Place, Tower 1.

From day 1, OSCA displayed a strong professionalism in guidance through choices of materials and design while also showing a deep understanding and curiosity in MONJASAs background, business and standard to ensure a result reflecting the company's image.

They were accommodating and fast in responding, paying good attention to feedback, providing frequent follow-ups and updates to the internal project group and stakeholders involved.

A special gratitude to be given to Marina Isniuk and Tiffany Yeow for their excellent work managing the project from start to end.

We would strongly recommend OSCA for any design and renovation work, while we at MONJASA surely would take another opportunity to work with OSCA in future, in either Singapore or Vietnam.

Thank you!

With best regards,

Morten Oestergaard Jacobsen
